

Game steps (1)

START

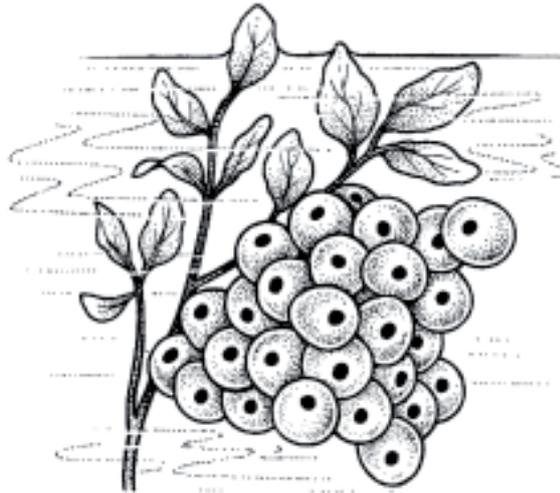

1. Spring is here!
Frogs are busy mating
in the pond.

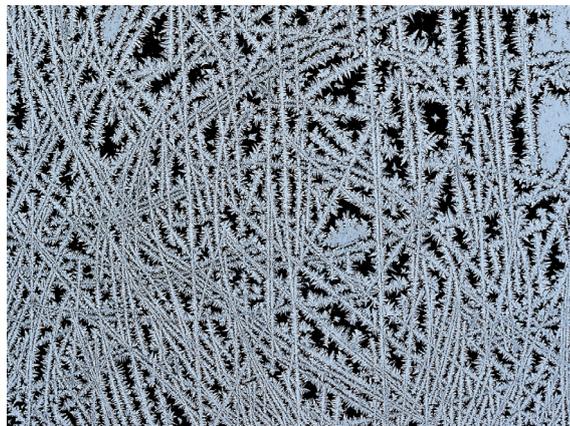

Move on 1

Game steps (2)

2. Thousands of eggs huddle together in the frogspawn

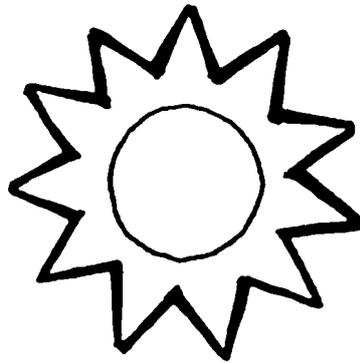

3. Oh no! Frost kills some spawn.

Lose 2

Game steps (3)

4. Warm weather melts the frost. The spawn is growing well

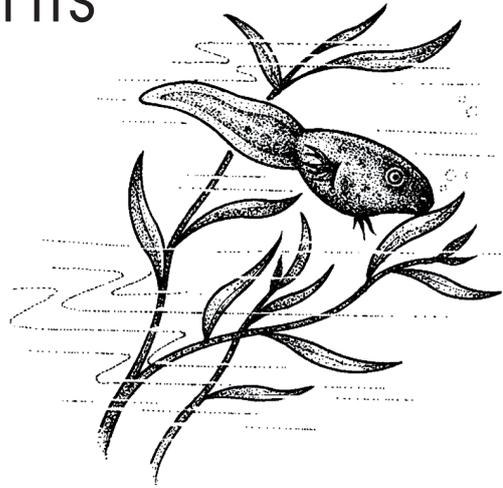

5. A child takes some spawn. The eggs die when kept out of the pond.

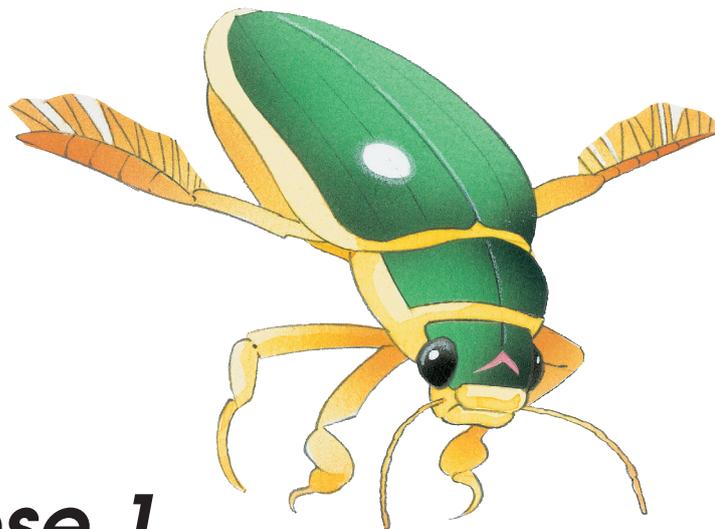

Lose 2. Move on 1

Game steps (4)

6. The frogspawn hatches into tadpoles. They search the pond for plants to eat

7. A great diving beetle hunts for tadpoles.

Lose 1

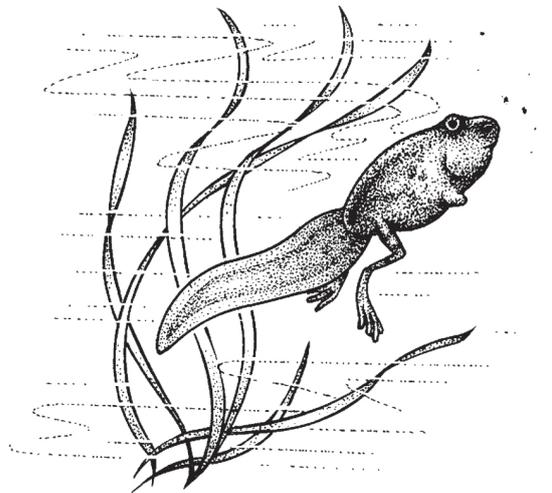

Game steps (5)

8. A dragonfly nymph attacks and eats 2 tadpoles.

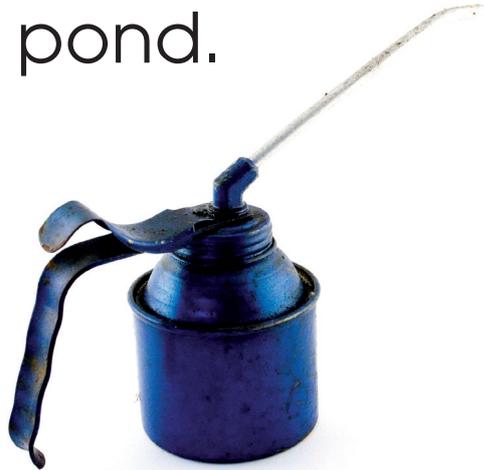

Lose 1

9. The tadpoles grow bigger – look at their back legs

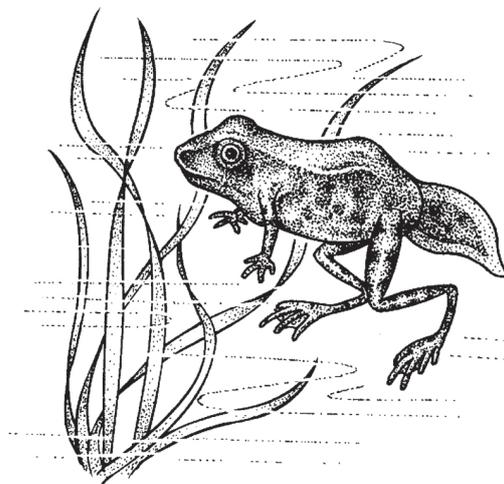

Game steps (6)

10. An old oil can pollutes part of the pond.

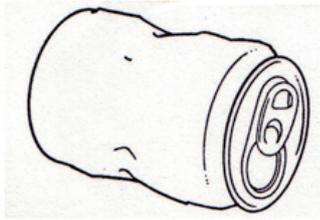

Lose 3

11. Now the tadpoles have front legs too!

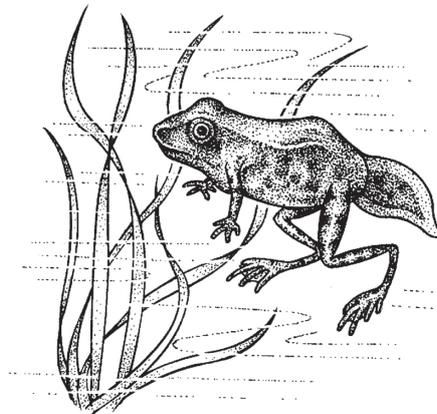

Game steps (7)

12. Picnic litter thrown in the pond harms some of the froglets.

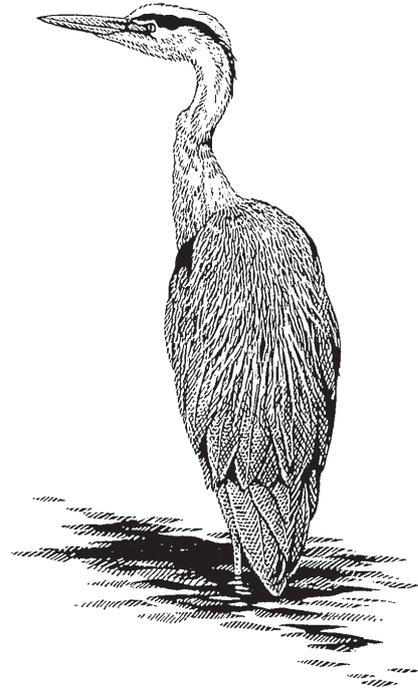

Lose 3

13. The tadpoles look like frogs now. They start to eat animals as well as plants

Game steps (8)

14. A heron catches frogs for lunch.

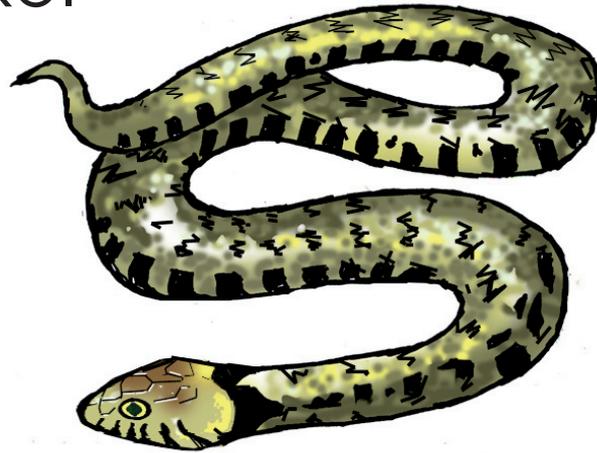

Lose 2

15. The baby frogs can now live on land as well as in water

Game steps (9)

16. Some of the baby frogs are eaten by a hungry grass snake.

Lose 2

17. A frog is on the grass when the lawn is being cut!

Lose 1

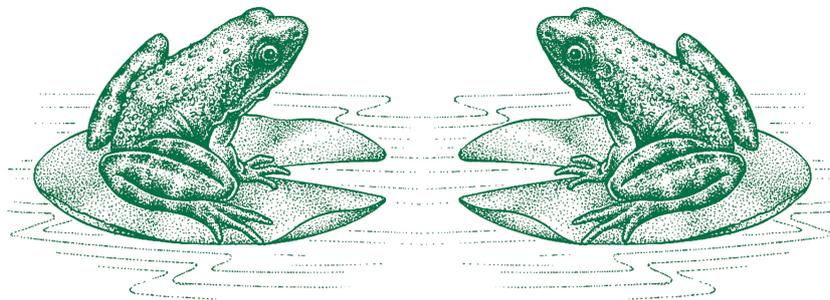

Game steps (10)

18. The frogs leave the pond to find new homes. Some are killed on the road.

Lose 2. Move on 1

19. The frogs have at last found a safe place to live!

Move on 1

Game steps (11)

END
