

# Instructions for making a never-ending book (1)

Use one piece of A4 or A3 paper

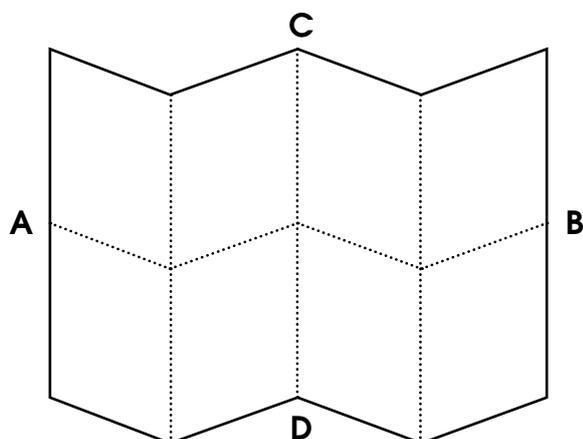

1. Fold in half lengthways – C to D, crease and then open out again.

2. Fold in half widthways – A to B

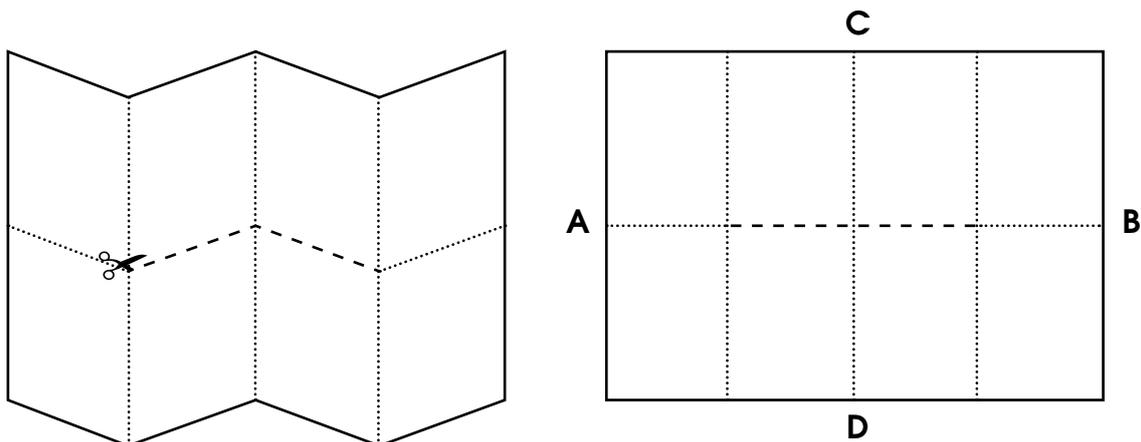

3. Fold each side A and B back up to the centrefold

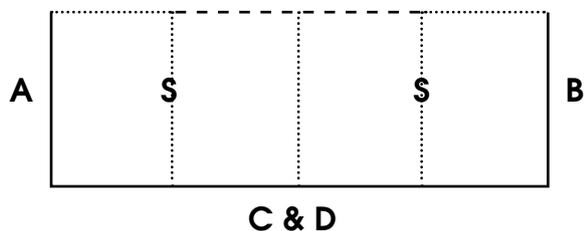

# Instructions for making a never-ending book (2)

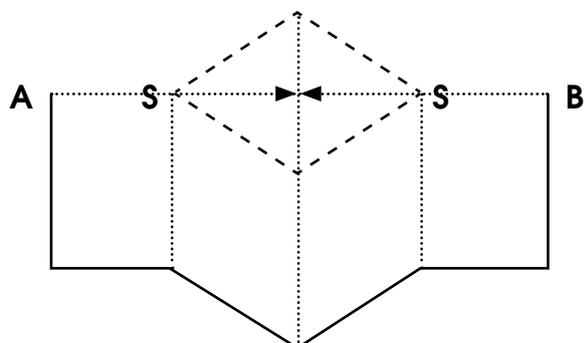

4. Cut along centrefold to the halfway point and then open out flat

5. Fold in half again along lengthways crease – C to D

6. Push ends A and B towards the middle to form an X so that S and S (see diagram above) meet

7. The book will have eight pages in total
