

COMPASSIONATE FAMILY

Overview for parents, guardians, and foster carers

1 SCENE SETTER

Kick off by introducing the concept of compassion and discussing the needs of animals

2 DISCOVERY

Choose your discovery activities - there are activities about dogs, cats, and rabbits.

You can complete as many discovery activities as your family would like to do - each session will explore the needs of different pets.

3 ADVOCACY

To bring together learning from the discovery sessions, select an advocacy activity that will task your family with championing animal welfare in a creative and imaginative way.

You can submit your family's advocacy stories for a chance to be featured by the RSPCA in one of our magazines.
